

Through The Eyes Of Love

Engelbert Humperdinck

This heart of mine belongs to you
Take care of it be kind
For I must go where you may lead
The eyes of love are blind

I may not see the things that I should see
The danger there might be in store
And I may do just what I shouldn't do
Because I'm looking through the eyes of love

It is true I know that eyes of love
Might dim the view for me
But eyes of love can see so much
That other eyes don't see

A bluer sky the sparkle in your eyes
All make me realize I'm yours
I've seen with you a world of dreams come true
Because I'm looking through the eyes of love
Because I'm looking through the eyes of love
