

Till The Right One Comes Along

Engelbert Humperdinck

No matter how I try
Don't know the reason why
This longing won't subside
To find somebody
The star upon I wish
Will send somebody if
I let my heart believe
There's someone for me

Oh I see the rainbow's end
Right around the corner, just around the bend

Till the right one comes along I'll wait, patiently
Dream of you, and all you'll be
Someone who will love me right or wrong
Make me feel like I belong
Until then, alone is where I know that I belong
Till the right one comes along

I know that I don't have
What other may possess
I'm one step out of time
Not like all the rest
And though I know I'm different
There must be one like me
Someone that I can turn to
There has to be

And oh I see the rainbow's end
Right around the corner, just around the bend

Till the right one comes around I'll wait, patiently
Dream of you, and all you'll be
Someone who will love me right or wrong
Make me feel like I belong
Until then, alone is where I know that I belong
Till the right one comes along
