Always Returning

Engineers

Always returning, taking hold far from home
It's time to learn to take control on your own

Some things you get by just asking
Some things you get if you ask or not
Some things can be never ending
Sometimes an ending is all you've got

Always relearning, seeds will grow, birds have flown
Sometimes befriending, still alone, hard as stone

Some things you get by just asking
Some things you get if you ask or not
Some things can be never ending
Sometimes an ending is all you've got
