

Clear Coloured Wire

Engineers

Take it all away
Did you hide and make youself
Straight to halt their pleas
All the signs are there

Respite from what you fell
Given time we've learned to share
Don't compensate for me
Will I find you there

Do my best to stear my goals
Clean coloured wire makes the right hole

(Do my best to stear my goals
Clean coloured wire makes the right hole)

Try to make my stay
Had to fight for recompense
Don't put the blame on me
All the signs are there

Filtered by a friend
Even time's not playing fair
Don't pin your hopes on me
Still I find you there
