

Body On The Line

English Dogs

Late at night you walk alone
You meet your business in the street
Caught in car lights the vehicle halts
and you step in the customers retreat

You're walking the line
And it could be the last time
You lay your body on the line
You lay your body on the line
You lay your body on the line
You lay your body

I was always taught to express myself
I don't wanna see you prostitute yourself

You're walking the line
And it could be the last time
You lay your body on the line
You lay your body on the line
You lay your body on the line
You lay your body

By the bridge stood in line
Vultures fighting over fisheads
Desperation goes through your mind
Vultures fighting over fisheads

No no no no more this is the last time
No no no no more cheap sex for a tenner a time

You're walking the line
And it could be the last time
You lay your body on the line
You lay your body on the line
You lay your body on the line
You lay your body
