

Calm Before The Storm

English Dogs

Safety I can feel
Darkness seems so far away
Sleep at last reveals
The dawning of another day
Awoken by the sound
A fire demon in front of me
Lightning hits the ground
Razes grass where I just lay

Calm, they say, comes before the storm
Like pride, they say, comes before the fall
Ride with me, experience it all

My sword is turned to ash
By terror I am seized
Sprinkled all around
Forms into and "E"
I call upon my powers
Oh gods don't let me die
Magic spell is cast
The demon's vanished from the sky

Calm, they say, comes before the storm
Like pride, they say, comes before the fall
Ride with me, experience it all

The powers helped me survive
With mercy for my cause
The demon disappeared before my eyes
Yet death got his reward
The second now I have seen
Burned deep upon my soul
Three, four, five lay in surprise
My eyes must not behold

Calm, they say, comes before the storm
Like pride, they say, comes before the fall
Ride with me, experience it all
