English Dogs

Now it's time to blow your cover you won't get another chance to tell your lies

Brother take off that disguise
it's milk from the mother , pain is the fodder
You're never satisfied until you're injuring another

From the breeding to the seeding to the solid to the blood
Your appetite is endless geared to bring distress , sadness , no remorse.
As soon as you are old enough to to read your legacy is on course.

It's true , so true ,
mentally I'm black and blue
refrain from the pain
that's kicking me from inside my brain.

Well the life that we live need sincerity
The life that we live need solidarity
The life that we live , never easy no...
Well the life that we live need sincerity
The life that we live need solidarity
The life that we live , never easy no...

I will bleed for you , I will know it's true.

Tendencies fascistic , your messages are cryptic
Your mixing in circles with twisted politics
You're way out of line , your shooting wide of the goal , enrolled
you're selling your soul.

paramilitary groups , troops coming in big black boots
bringing misery to me yeah!
Time to delete it , let's obliterate it

It's true , so true ,
mentally I'm black and blue
refrain from the pain
that's kicking me from inside my brain.

Well the life that we live need sincerity
The life that we live need solidarity
The life that we live , never easy no...
Well the life that we live need sincerity
The life that we live need solidarity
The life that we live , never easy no...

Our lives , our lives , our lives
We need to improve our lives
Our lives , our lives
Let's delete it
Our lives , our lives , our lives
We need to improve our lives
Our lives , our lives
Let's delete it
