

Gorgonized

English Dogs

Haunted by dreams of a deceiver,
a beauty divine
Calling your name out of the darkness,
awaits your demise
Seek her, a miss with a myth,
but don't look in her eyes
2000 years in the forest,
alone and despised
Bending your will, sensing a kill,
still you are drawn by her song
Follow the path, humming the tune,
still you are drawn to her lair
You know it's wrong
Misty white death, virgin betrayer,
encased in her tomb
Woken by kiss, you couldn't resist, now you are trapped and alone
Slow death awaits,
your mistake was to fall in her eyes
She will turn you to stone,
like a god, pass the centuries by
You have been Gorgonized
You looked in her eyes
and she made you a statue of lies
Make no mistake you have been gorgonized
Bending your will, sensing a kill,
still you are drawn by her song
Follow the path, humming the tune,
still you are drawn to her lair
You know it's wrong
Capture the past, memory lasts
in an eternal black hole
Men will be victims and dance
to their deaths with her song Slow death awaits,
your mistake was to fall in her eyes
She will turn you to stone,
like a god, pass the centuries by
You have been Gorgonized
Dance to the tune of the Gorgon
and feast in her eyes
Rise like the moon and be still,
born of infernal fires
You have been Gorgonized.
