

Last One Standing

English Dogs

Keep voicing your opinion
this outrage keeps going on
Cattle trucks packed for export
we may as well be cannibals
Animals kept with no concern
Someone in authorities' gonna burn
Protestors make all aware
What's going on behind closed doors

Till the last one standing
Till the last one standing
Till the last one left alive

News at ten and Britain sees
Dogs and pigs and bureaucracy
English town in unity
standing strong in their beliefs
Riot squad in and the crowd reacts
Vehicles move the crowd pushes back
No one wanted death involved
Peaceful protest and nothing's solved

Till the last one standing
Till the last one standing
Till the last one left alive

I know the wicked , the wicked won't take my life away

Till the last one standing
Till the last one standing
Till the last one left alive
