

# Nipper Tripper

English Dogs

Fed acid as anipper  
Grew into a tripper  
Now you'll see I'm a reality casualty

Every day since the age of two  
My parents gave to me  
Hash in my milk and acid in my food  
Never had normality  
The one day when i was ten  
And no one was around  
The forgot to feed my head  
And I started coming down

Please take me back  
Please take me back  
Please take me back  
I don't wanna see your reality

Take me back  
Please take me back  
Please take me back  
I wanna see all the things i used to see

Climbing up the walls inside my room  
Fog's clearing my mind  
Things are coming into view  
I'd rather be blind

Gangrene head everything's red  
Rag doll feet guy fawking of the leg  
Chainsaw mole spikey haired troll  
Give me one more bite on that bottle  
You see now

Please take me back  
Please take me back  
Please take me back  
I don't wanna see your reality

Take me back  
Please take me back  
Please take me back  
I wanna see all the things i used to see
