

Out In The Cold

English Dogs

You can't put our circle back in line
You don't hold the future on your hands

The old system is losing control
Let the new system put the future on hold
The old system is losing control
Put your kids futures out in the cold
For reasons that I'll never know

No good using values from our past
'cos the modern world's a violent place

The old system is losing control
Let the new system put the future on hold
The old system is losing control
Put your kids futures out in the cold
For reasons that I'll never know

I could count the good things on one hand
So the next time that we get the chance to say

No No No No No

Are you gonna jump up when they call you? (No!!!)
Are you gonna sit down when they tell you? (No!!!!)
Are you gonna join up when they tell you? (No!!!)
