

# This Is Not A War

English Dogs

When there's no birth control  
And when the land is gone  
And all that's left is Mega Cities  
Whith no order, no law

This is not a war  
This is not a war  
No order, no law  
No law, no law  
No, this is not a war

Who do you fight for?

Small states of Anarchy  
Drug God celebrities  
All things for those who can afford  
But no order, no law

This is not a war  
This is not a war  
No order, no law  
No law, no law  
No, this is not a war

Will the police protect you?  
Do they do it right now?  
Will the police protect you?  
Do they do it right now?

Will the police protect you?  
Do they do it right now?  
Will the police protect you?  
Do they do it right now?

NO!!

This is the future we're in  
This is the future we're in  
This is the future we're in  
This is the future

They don't know  
They don't know  
They don't know how close we are

They don't know  
They don't know  
They don't know how close we are

They don't know  
They don't know  
They don't know how close we are

They don't know  
They don't know  
They don't know how close we fucking are

This is not a war  
This is not a war  
No order, no law  
No law, no law  
No, this is not a war
