

Ultimate Sacrifice

English Dogs

I sit writing out my last goodbye
The people all glamour around
In my own cell I am condemned to die
For the twenty-one people I drowned

Twenty-one lives became twenty-one deaths
In one night of madness from me
Twenty-one bodies, not even a breath
They all died in agony

Make me a martyr, I've earned the right
Leading my cult in the dead of the night
Don't you want to hear my famous last words?
"See all you angels in Hell"
Ultimate sacrifice!

They gave me their lives,
They gave me their souls
To do with them as I did please
They gave me the right to reverse all their roles
They prayed to me down on their knees

I had to test out the ultimate power
Would they obey my command?
All twenty-one died in just less than an hour
The power of god in my hands

Make me a martyr, I've earned the right
Leading my cult in the dead of the night
Don't you want to hear my famous last words?
"See all you angels in Hell"
Ultimate sacrifice!

Make me a martyr, I've earned the right
Leading my cult in the dead of the night
Don't you want to hear my famous last words?
"See all you angels in Hell"
Ultimate sacrifice!

So here I am now in a cell on death row
My followers mourning for me
My spirit is strong and will live on and on
I'll go down in all history

My famous last words, as the trapdoor is sprung
Is cut short by my final breath
Take me down, Satan, to live in your Hell
May your spirit command my own death

Make me a martyr, I've earned the right
Leading my cult in the dead of the night
Don't you want to hear my famous last words?
"See all you angels in Hell"
Ultimate sacrifice!

See all you angels in Hell!
