

Wall Of Steel

English Dogs

The battle's been raging for nearly a year
The people are starting to live out their fears
The food has ran out and the water is foul
Tolerance is more than the people can allow

Streets lay in ruins behind the great walls
Bodies are piling so high that they fall
The stench all around is so putrid to smell
The city within is like living in Hell

Wall of Steel
How does it feel to die?
Wall of Steel
Burned to the ground
Wall of Steel
How does it feel to die?
Wall of Steel
Wiped of the Earth... and into the Sky

Finally, terribly, people give in
Can't take the path anymore
Small band of soldiers, The rebels in sin
In the night open the door

In pour the armies and massacre reigns
Death is the only response
As carnage and looting and killing begins
Death rules as Death was there once

Wall of Steel
How does it feel to die?
Wall of Steel
Burned to the ground
Wall of Steel
How does it feel to die?
Wall of Steel
Wiped of the Earth... and into the Sky

Show no remorse to the few that survive
Taking their minds be it dead or alive
Plundering armies beat the Wall of Steel
Cowering citizens lose on their deal

The city they live in once impregnable
Had turned itself red overnight
But the city of steel it got burned to the ground
The people had now lost their fight

Wall of Steel
How does it feel to die?
Wall of Steel
Burned to the ground
Wall of Steel
How does it feel to die?
Wall of Steel
Wiped of the Earth... and into the Sky

Wall of Steel
Wall of Steel
Wall of Steel
Burned to the ground
