Because the one true ending

That splendid future

Waits for us

The days I'm being chased, the days I kneel down

And the first day I finally declare

Those days fell into place one

By one like pieces of a puzzle

Until one day a long shadow

Fell before my eyes

No matter where the sun is

The shadow were always cast before

I realized that moment

The shadow that bottomless

With me tomorrow
It's such a notice that
Visits me a day
Facing the rain, wind and typhoon that draws nearer
The fate of those who knew first
But
But
But
If it's a struggle to keep your promise
The trust we had shared more
Can you be solid?
I still believe, I still firmly believe
We can still meet
We will connect no matter what

In front of me, foreshadow
The next day, I realized it
I'm afraid now
I'm afraid now, never
I'm not afraid anymore
Even when you face the tests
The promise on that day
Follow my footsteps
You should follow me

Our world
Our world
Our world
Our world
Our world

Therefore
I
I run after the shadows
Towards a new world that will reach the end of the shadow
It's cold
Painfully
Even if I'm sad
I will running first

Because the one true ending
That splendid future
Waits for us
