

La dadadada di da di da
La dadadada di da di da

I'm trying to catch your vibe tonight
No I can't make no compromises
Yeah I'm about to break the rules
Come with me cause you're all invited

Yeah we're gonna be alright, alright
No stress, no fear can't stop me
Get low, get high, it's the remedy
Got bad tonight
When you're green like hot wasabi
Tonight, tonight

We don't give a lot lot lot tonight
And we won't give a lot lot lot tomorrow
We're gon' put our hands up to the sky
When we hear the DJ drop we all roar

La dadadada di da di da
La dadadada di da di da
La dadadada di da di da
La dadadada di da di da

We ain't gonna leave yeah
We sleep when the sun comes up oh
So blame it on me yeah
If all night your hands stay up

Yeah we're gonna be alright, alright
No stress, no fear can't stop me
Get low, get high, it's the remedy
Got bad tonight
When you're green like hot wasabi
Tonight, tonight

We don't give a lot lot lot tonight
And we won't give a lot lot lot tomorrow
We're gon' put our hands up to the sky
When we hear the DJ drop we all roar

La dadadada di da di da
La dadadada di da di da
La dadadada di da di da
La dadadada di da di da

La dadadada di da di da
La dadadada di da di da
