

Lean On

Enisa

Dark times, yeah we feel it all around us
Feels like there's nobody that you can trust
Bad news came and hit me like a fast truck
Chewed my back up [?]
Don't forget about me 'cause I'm checkin' on you
I know we goin' through this pain
Yeah we all feel the same
One day it's gon' change

When the rain, is fallin' down
When you're lost, you will be found
When it's so, hard to breathe
You can lean, on me

I know it's been a long [?]
All that shit got us shippin' like a headcase
Last place but we bounce back to first place
Never lose faith
Don't forget about you, so don't forget about me
I know you goin' through this pain
Yeah we all feel the same
One day it's gon' change (One day)

When the rain, is fallin' down
When you're lost, you will be found
When it's so, hard to breathe
You can lean, on me (On me)

You can lean, lean, lean on me (You can lean, lean)
You can lean, lean, lean on me (You can lean, lean)
You can lean, lean, lean on me (Lean)
You can lean, lean, lean on me (You can lean)
You can lean, lean, lean on me (Lean)
You can lean, lean, lean on me (You can lean)
You can lean, lean, lean on me
You can lean, lean, lean on me

When the rain, is fallin' down
When you're lost, you will be found
When it's so, hard to breathe
You can lean, on me
