

Love Cycle

Enisa

Running around in circles I just can't get you out of my head
Fight the connection but the emotion keeps on pulling me in
Try to resist you until I hear you
Knock, knock back in my door now
I'm falling into habits that I broke through, oh

You just keep me
Moving in slow motion
Right back at the start

Another round cause we never give up
Would shut it down but I want it too much
I'm a slave to the rhythm I can't break away
Another round spillin' outta my cup
I take it down but it's never enough
I'm a slave to the rhythm I can't break away

You got me stuck in a
Love cycle
La-la-la-la-la-love cycle love
Love cycle love

Thought that I told you we were suppose
To keep our intentions clear
The more that I try to keep my hands off you
The more that I want you here
Can't break the cycle
Stuck on a high
No, stop, stop
Can't take it no more no
You made me question
What are we doing this for?

You just keep me
Moving in slow motion
Right back at the start

Another round cause we never give up
Would shut it down but I want it too much
I'm a slave to the rhythm I can't break away
Another round spillin' outta my cup
I take it down but it's never enough
I'm a slave to the rhythm I can't break away

You got me stuck in a
Love cycle
La-la-la-la-la-love cycle love
Love cycle love
Love cycle
La-la-la-la-la-love cycle love
Love cycle love

(One more time)
(Hey, hey)

Love cycle
