

My Everything

Enisa

You make me wanna be somebody
Never knew a love like this could be meant for me
You make me forget my problems
Never knew a love like this could make me so free

Everywhere you go, I follow
You're the missing piece, you know you make me complete
I'm in it so deep, I'm fallin'
Yeah, yeah

My first, my last, my everything
The reason for my melody
Forever, every night to you I'll sing
My Habibi
My Habibi
My Habibi
My Habibi
My Habibi

I'll never want another lover
Anybody else would be just be a waste of time
I could never love no other
Riding to end, you know we riding for life

Everywhere you go, I follow
You're the missing piece, you know you make me complete
I'm in it so deep, I'm fallin'
Yeah, yeah

My first, my last, my everything
The reason for my melody
Forever, every night to you I'll sing
My Habibi
My Habibi
My Habibi
My Habibi
My Habibi
