

Reunite

Enisa

When I'm feeling down
I look up to the sky
Even though you're not around
I hear you deep inside
All you left behind
So close to living a life
Wrong place at the wrong time
A world of angels you will find

Missing ain't the word
My soul cries every night
Can't feel the pain I bleed
Only darkness in my light
This pain right in my heart
Only tears fill up my eyes
We'll reunite
We'll reunite
We'll reunite

When I'm feeling blue
I pretend I'm sitting with you
Think of all we use to do
Watching stars light up the moon
Not a day goes by that I can't picture you face
And all the tears I cried can still never erase

Missing ain't the word
My soul cries every night
Can't feel the pain I bleed
Only darkness in my light
This pain right in my heart
Only tears fill up my eyes
We'll reunite
We'll reunite
We'll reunite

When I'm feeling down
I look up to the sky
Even though you're not around
I hear you deep inside

Missing ain't the word
My soul cries every night
Can't feel the pain I bleed
Only darkness in my light
This pain right in my heart
Only tears fill up my eyes
We'll reunite
We'll reunite
We'll reunite

Missing ain't the word
My soul cries every night
Can't feel the pain I bleed
Only darkness in my light
This pain right in my heart
Only tears fill up my eyes

We'll reunite
