Worthless Human Being

Enisa

Just tell me if we got a problem, let me know
'Cause I can't read your mind, no, I can't crack the code
Yeah you were actin' all so hot, now you cold
Though you got me turnin' inside out
The way you did me dirty would make Judas cry
If I'm being honest
You're just a worthless human being, being
You're giving "bitch" a whole new meaning

I really thought you understood me
You put me in just to put me on a short lease
You tied me down so I can't leave
All you give me is frustration
I pried myself from this same situation
I deserve reciprocation

Just tell me if we got a problem, let me know
'Cause I can't read your mind, no, I can't crack the code
Yeah you were actin' all so hot, now you cold
Though you got me turnin' inside out
The way you did me dirty would make Judas cry
If I'm being honest
You're just a worthless human being, being
You're giving "bitch" a whole new meaning

No, you never showed me nothing
Sucka punch, no, I never saw it coming
Bitch, you really think it's something
Bet you don't know I'm a soldier
Won't give in 'cause the war's never over

Just tell me if we got a problem, let me know
'Cause I can't read your mind, no, I can't crack the code
Yeah you were actin' all so hot, now you cold
Though you got me turnin' inside out
The way you did me dirty would make Judas cry
If I'm being honest
You're just a worthless human being, being
You're giving "bitch" a whole new meaning
