

# SUPERNOVA

ENLEO

This dead of night  
This choking smoke  
Falling down to my knees  
I soothe my soul

My shadow's gone  
(My shadow's gone)  
In search of home  
I lay down all my future  
For God to hold

It's taking me over  
No light beams out  
I'm singing for death  
Like it's all around  
But still hear an echo  
Of your voice so loud

Oh would you stay for me?  
When there's no one left no more  
Bleeding out, I'm on the floor  
So helpless  
Darling, you all I need  
To light up the stars and glow  
Lift me rise before it's over  
Make me supernova  
Make me supernova

Стоп  
Я відчуває тепло  
Ковтаю жадібно повітря  
Роблю крок  
Тягар, що на плечах і біль в моїх очах  
Не перешкода, бо мене веде до тебе шлях  
Там сонце світить лише нам  
Я за нього все віддам  
Ми удвох, але я сам

It's taking me over  
No light beams out  
I'm singing for death  
Like it's all around  
But still hear an echo  
Of your voice so loud

Oh would you stay for me?  
When there's no one left no more  
Bleeding out, I'm on the floor  
So helpless

Darling, you all I need  
To light up the stars and glow  
Lift me rise before it's over  
Make me supernova  
Make me supernova

Make me supernova

Make me supernova  
And before it's over  
Make me supernova
