

Charge It

ENNY

Charge it to the game I guess
Turn L's into lemons and zest
Double D's and a book on investing
Tryna get all of my shit up in check
I could never be a friend of a foe
But I fold at the sight of an "are you up?" text
Now I know what I gotta to do next
'Cause a nigga had me moving obsessed
True yeah and still I let it slide
Electric
Now I've got you blocked like it's Tetris
And now I only get it where the check is
Like look at all the baggage I just deadlift
And you ain't gotta tell me what attached is
I guess I really went and found my matching
I ain't never gonna let you bring me down, down, down

'Cause even when you let me down (I'll wait)
I don't wanna watch you leave (Night day)
See me when the sun goes down yeah (Find me)
Wait, I think I'm in too deep yeah (I'll stay)
'Cause even when you let me down (I'll wait)
'Cause I don't wanna watch you leave, yeah
Breakbeats and heartbreak
Late nights and heartache
Fuck it, I'll charge it
Fuck it, let's charge it

Shit
I charge it to the game 'cause my battery low
Charging for my time like a Patek or mo'
Charging all the artists who imported the flow
Rippin' up the garden every time that I grow
My roots too deep like John Amos
And I may go
Beyond them lines a couple times
A couple shots of the nineteen for-
-ty two
Errbody famous but fuck it
Me too
Call me young Marley McCartney
A beetle
Confidence killin' 'em softly
Wagyu
Why you do 'em dirty? You wylin'
I had to
Smell good, real hood blockarat flow
Know the name, know the face like a iPhone
Snub nose, snort 'em out, sort 'em out, whoa
Whoa
Whoa

Who told you to play yourself?
You might just run it back
There's a thousand ways to counter this
And yet I find I'm back
Plans to keep me wrapped around you

Like a single piece of thread
I think my needs might be my debt
My heart, my mind, it needs reset

'Cause even when you let me down (I'll wait)
I don't wanna watch you leave (Night day)
See me when the sun goes down yeah (Find me)
Wait, I think I'm in too deep yeah (I'll stay)
'Cause even when you let me down (I'll wait)
'Cause I don't wanna watch you leave, yeah
Breakbeats and heartbreak
Late nights and heartache
Fuck it, I'll charge it
Fuck it, let's charge it

'Cause even when you let me down (I'll wait)
I don't wanna watch you leave (Night day)
See me when the sun goes down yeah (Find me)
Wait, I think I'm in too deep yeah (I'll stay)
'Cause even when you let me down (I'll wait)
'Cause I don't wanna watch you leave, yeah
Breakbeats and heartbreak
Late nights and heartache
Fuck this, let's charge it
Fuck it, I'll charge it
