

Hocus Pocus

Enon

When we dance
Like a bug in the brandy, baby
Drunk on the candy of you
And I don't need to tell you I love you

When we touch
Nothing in the world fills me this much
Melting away from the heat
Then lay at your feet
Yes, I love to

When we kiss
I am certain no one else exists
Kissing, you know what you do
And I don't need to tell you
I love you, baby
