

Shave

Enon

i know you can save
save up your story in your mind container

i know you can shave
shave off the shadow that's been growin on you

i know you can say
say that you wanna be the only one

i know you can stay
stay in your room, its expensive toys

tie my love up till the end of time
time, time lover must begin its dying
tie my love up till the end of time
time, time lover must begin its dying

i know you can save
save all your money to secure your favor

i know you can shave
shave off the pennies and enjoy the few

i know you can say
say that you're gonna be the only one

i know you can stay
stay in your room, its expensive toys

tie my love up till the end of time
time, time lover must begin its dying
tie my love up till the end of time
time, time lover must begin its dying
