

3 Letters

Enrique Iglesias

One love
Enrique Iglesias
Pitbull

I don't care if you're taken
Long as you're single I come around
I don't care for love making
I wanna beat it till you walls come down
I put the key in your ignition
Turn you on
So you revved up, ready to go
Now I can tell you what I'm thinking, if you want
But you already know, already know

I got three letters on my brain
I shouldn't have to spell it for you
I've for three letters on my brain
I can't wait to put it on you
And have you like, wo-oh, make your body, explode
I got three letters on my brain
I shouldn't have to spell it for you

I don't care what you're wearing
Because it all looks good on a flow
I wanna see you standing
With nothing on but the heels you own
I put the key in your ignition
And Turn you on
So you revved up, ready to go
Now I can tell you what I'm thinking, if you want
But you already know, already know

I got three letters on my brain
I shouldn't have to spell it for you
I've for three letters on my brain
I can't wait to put it on you
And have you like, wo-oh, make your body, explode
I got three letters on my brain
I shouldn't have to spell it for you

I'm going down, going down, going down
Cause baby you're sexy
So turn around, turn around, turn around
Cause baby you're sexy

I got three letters on my brain
I shouldn't have to spell it for you
I've for three letters on my brain
I can't wait to put it on you
And have you like, wo-oh, make your body, explode
I got three letters on my brain
I shouldn't have to spell it for you

I got three letters...
I got three letters...
