

Be Together

Enrique Iglesias

I've been broken, pieces lost
Cut on the sharp edges of my heart
I've been lonely, felt the loss
Looked off the edges, and I have fallen off

You're always there when I fall through the air
Can't open my eyes, baby, I'm just too scared
They say I'm crazy and maybe that's fair
When my hands are shaking, baby, I swear

Catch me and I'll catch you
Let me and I'll let you
Some things are just meant to
Be together, be together
Catch me and I'll catch you
Let me and I'll let you
Some things are just meant to
Be together, be together

Be together, be together

People will hurt us, take what they want
Love what you have now, before it's what you lost
Nothing is perfect, like beautiful pain
You take my troubles and wear it like the rain

And you're always there when I fall through the air
Can't open my eyes, baby, I'm just too scared
They say I'm crazy and maybe that's fair
When my hands are shaking, baby, I swear

Catch me and I'll catch you
Let me and I'll let you
Some things are just meant to
Be together, be together
Catch me and I'll catch you
Let me and I'll let you
Some things are just meant to
Be together, be together

Yeah, yeah, yeah
Be together, be together
Yeah, yeah, yeah
Be together
Be together, be together
