

Still Your King

Enrique Iglesias

I wanna be that guy inside your wildest dreams
So when you close your eyes you're staring back at me
And as the tears fall down burning like gasoline
I might be all outta aces but baby
I'm still your king
I'm still your king

Baby
Yeah I might be a little faded
And you might think that I'm just hating
But it seem to me that you downgraded
I'm just saying

Cause I still remember those crazy nights
Making love under the laser lights
Rolling that body all over mine
Now I see you with him
You must be joking right

I wanna be that guy inside your wildest dreams
So when you close your eyes you're staring back at me
And as the tears fall down burning like gasoline
I might be all outta aces but baby
I'm still your king
I'm still your king

Lately
I been thinkin about how we got crazy
I hate to be the one to say this
But I think your boyfriends overrated
I'm just saying

Cause I still remember those crazy nights
Making love under the laser lights
Rolling that body all over mine
Now I see you with him
You must be joking right

I wanna be that guy inside your wildest dreams
So when you close your eyes you're staring back at me
And as the tears fall down burning like gasoline
I might be all outta aces but baby
I'm still your king
I'm still your king

I'm on one
Been drinking
Wanna show you what I been thinking
Maybe we should get to leaving
Cause that bed is still my kingdom
And that body's my castle
Hate to be the one to be the asshole
But your boyfriend need to go home
Cause the king's back
Give me my throne

Cause I still remember those crazy nights

Making love under the laser lights
Rolling that body all over mine
Now I see you with him
You must be joking right

I wanna be that guy inside your wildest dreams
So when you close your eyes you're staring back at me
And as the tears fall down burning like gasoline
I might be all outta aces but baby
I'm still your king
I'm still your king
I'm still your king
