

Sequence

Enslaved

Genome of the secret being
Residing in the shadow-half
Hidden words of creation
Sought out by the light-bearer

Eternal whispers drop from the gap
An open hand into the ether
Peeling downwards in holy layers
Finding the sequence there
It opens it all

A divine phrase buried deep
In cosmic ramblings
Cyclic thought patterns
Backwards bent cold logic

Does not matter if you're tail or mouth
All serpent - chasing the end
Chasing the beginning
Blood-drawn walls, quantum songs

Ecstatic dual peaks
Dead-stare distants
Animal thirst and shaman sight
War-moon and atom souls
Finding the sequence here
Opening it all
A keep drawn deep within
The chaotic lines of history

It's not a secret
Being kept from man
It's a poem dwelling within
Thousand-fold screaming choirs
Scaled down and spoken softly
The sequence unfolds
Utilized for will and power
Kept within our hearts and songs
