

## Interlude 1

Enter Shikari

We've come this far  
You've barely got your feet wet  
We've come this far  
You've barely scratched the surface  
We've come this far  
That bite looks really bad  
We've come this far  
How could you sing?  
We're right behind you...  
Do you dare to continue?  
Do you dare to continue?
