

"There is no alternative
Take my hand if you want to live"
"There is no alternative
Take my hand if you want to live"

No, I feel it coming in the air
You can enter if you dare
It's the essence of humanity
To build an infinite reality

F16's flying overhead
The present is the past
That we cannot shed
Umbilical cord
That we cannot cut
A secret trapdoor
That we cannot shut

I never noticed you were in disguise
But now I see you T.I.N.A
You were a barrier around my mind
Yeah I see through you T.I.N.A

I never noticed you were in disguise
But now I see you T.I.N.A
You were a barrier around my mind
Yeah I see through you T.I.N.A

No, I feel it coming in the air
You can enter if you dare
It's the essence of humanity
To build an infinite reality

It's a crisis of creativity
We've forgotten our ability
A glimpse of light from another sun
But you block it out, now we're on the run

I never noticed you were in disguise
But now I see you T.I.N.A
You were a barrier around my mind
Yeah I see through you T.I.N.A

I never noticed you were in disguise
But now I see you T.I.N.A
You were a barrier around my mind
Yeah I see through you T.I.N.A
