

# Scars Of The Past

Enterprise Earth

If I could turn back time  
I would do it again  
All the scars of my past

Are a part of who I am

This empty world (this empty world)  
Changed me forever (forever)  
I had to do what I had to do  
Just to survive  
These wounds won't heal (these wounds won't heal)  
Try to numb the pain but I still feel  
Every incision that I've ever made  
(Every incision I've made)

I cannot ignore it anymore

I cannot suppress the hatred building up inside of me  
Self-loathing energy, I am my own enemy  
It's getting harder to distract myself from the pain  
Self-loathing energy, I am my own enemy

I live in a paradox  
Where the pain I feel is a paradise  
Picking at the open wounds  
Until the trauma inside me has been exhumed  
The poison inside me  
Will run its course  
Consuming me from the inside  
Killing me with no remorse

This empty world (this empty world)  
Changed me forever (forever)  
I had to do what I had to do  
Just to survive  
These wounds won't heal (these wounds won't heal)  
Try to numb the pain but I still feel  
Every incision that I've ever made  
(Every incision I've made)

If I could turn back time  
I would do it again  
All the scars of my past  
Are a part of who I am  
If I could turn back time, I would do it again  
All the scars of my past are a part of who I am  
If I could turn back time, I would do it again  
All the scars of my past are a part of who I am

I wear the skin of a dead man  
An hourglass running out of sand  
I spit in the face of their judgement  
Answering to no one, I answer to nothing (nothing)  
I answer to nothing  
I answer to no one, I answer to nothing

This empty world (this empty world)

Changed me forever (forever)  
I had to do what I had to do  
Just to survive  
These wounds won't heal (these wounds won't heal)  
Try to numb the pain but I still feel  
Every incision that I've ever made  
(Every incision I've made)
