Skeleton Key

Enterprise Earth

Dead inside
You're miserable
You drag everyone down with you
So you don't feel alone
Your insides are exposed

Dead inside
Despicable
You are unforgivable
A waste of fucking life
You can run but you can't hide

You don't even know me
You seem to think you do
Everything you hate about me
Is everything that I see in you

You hate everything because you hate yourself

You're miserable
You drag everyone down with you
So you don't feel alone
Your insides are exposed

Dead inside
Despicable
You are unforgivable
A waste of fucking life
You can run but you can't hide

This is where you belong
This is the hell that you
Created for yourself

Misery is your home

You're dead inside
Alive on the outside
You're dead inside
Alive on the outside

Dead inside
Dead inside (Inside, inside)

There's nowhere left to hide
Bite out your tongue
Tear out your eyes
