

# Unleash Hell

## Enterprise Earth

Unleash hell

What we do here echoes into eternity  
They will bleed and the earth shall drink  
Show no mercy when they're begging on their knees  
We will spill the blood of our enemies

Unleash hell  
Show them what you're made of  
Unleash hell  
Show them what you're made of

Look into their eyes  
Do you see your reflection?  
Remember who you are  
This is your chance for redemption

Everything that they told you that you can't do  
Is a chance to prove to them that they don't own you

Were we even alive  
Or did we die a long time ago?  
Do we even believe in ourselves?  
Unleash hell

What we do here echoes into eternity  
They will bleed and the earth shall drink  
Show no mercy when they're begging on their knees  
We will spill the blood of our enemies  
Unleash hell

Unleash hell

Unleash hell  
Show them what you're made of

Were we even alive  
Or did we die a long time ago?

Were we even alive  
Or did we die a long time ago?  
Do we even believe in ourselves?  
Unleash hell  
Are we even alive?  
Do we even believe?  
Unleash hell

What we do here echoes into eternity  
They will bleed and the earth shall drink  
Show no mercy when they're begging on their knees  
We will spill the blood of our enemies  
Unleash hell
