

I Am The Void

Entheos

I am the void
A spell on my skin
But I couldn't help it

It lives in my dreams
Grind my teeth at night
Aaa-aa-aah
Fears, they take flight
Right in front of me
The words I speak
Are giving them life

A universe inside of me
Still, I can't see
My way into the light

In my head like a void
Lost in the lapse of time
You are the calm
I am the world on fire
I can feel the sunlight
Draining us all
Every day is nothing
But a death to me

Close your eyes
And clear your head
Wake the earth from below
With the blood from your knife
And if you move slowly
One inch at a time
Then you will always
Remember to begin
With the end in mind

In my head like a void
Lost in the lapse of time
You are the calm
I am the world on fire
I can feel the sunlight draining us all every day is nothing
But a death to me

In my head like a void
Lost in the lapse of time
You are the calm
I am the world on fire
I can feel the sunlight draining us all
Every day is nothing
But a death to me

In my head like a void
Lost in the lapse of time
You are the calm
I am the world on fire

In my head like a void
Lost in the lapse of time

Every day is nothing
But a death to me

What would I give?
To feel whole
As all of my fears
Begin to eat away at me
