## **Chief Rebel Angel**

Entombed

Down here on the ground since it all began Expiriment in moral and behavior In spite of all imperfection I'm a fan of man The worm is my rose too

Many my name But one and the same Chaos, being And the everlasting flame

Phosphoros Lucifer Stand up! In praise of the morning star Phosphoros Lucifer Say it! Chief Rebel Angel Phosphoros Lucifer Stand up! In praise of the morning star

Don't get too cocky, keep yourself small Don't ever let them see you coming Look at me, underestimated from day one You never see me coming, I'm a surprise

Solid my game We're one and the same The chaos, the being And the everlasting flame

Watching, waiting Holding my breath But I'm no puppeteer The stage is set, you pull your own strings now Like butterfly wings Once they're touched they never leave the ground No, I don't make things happen here

Phosphoros Lucifer Say my name
