

# Destination Death

## Entrails

Journey for the wicked  
Death league on the road  
Towards absurdity we go  
On route destruction  
Wherever it may lead  
To spread our pure insanity

We ride through carnage  
Destination death  
We kill by all and any means  
A quick stop in killville  
Fill up in weaponry  
Then head towards brutality

We ride through carnage  
Destination death  
We kill by all and any means  
A quick stop in killville  
Fill up in weaponry  
Then head towards brutality

Limbs and organs  
Will splatter across the lands  
When they are faced with our wrath  
We leave but corpses  
Mutilated and maimed  
And leave them rotting in their place

We ride through carnage  
Destination death  
We kill by all and any means  
A quick stop in killville  
Fill up in weaponry  
Then head towards brutality

We stop at nothing  
We don't take any breaks  
Forever killed, forever dead

We ride through carnage  
Destination death  
We kill by all and any means  
A quick stop in killville  
Fill up in weaponry  
Then head towards brutality
