

Miscreation

Entrails

Skin cracked, guts exposed
As it dwells in the dark
It stinks of a hundred bad breaths
From its hundred mouth

An abominable pile
Miscreation
Spewing pestilence and bile
Miscreation
A horrendous slab of life
Miscreation
With excruciating strife
Miscreation

Slimy beast of carnage
A living, moving cyst
Glowing in the darkness
Through the mist

An abominable pile
Miscreation
Spewing pestilence and bile
Miscreation
A horrendous slab of life
Miscreation
With excruciating strife
Miscreation

Pus leaking out
Deformity that smells and sound
Limbs in every direction
Twisted mass of gross infection

Slithering through the mud
Chewing through the night
Devouring everything that's
Close and all in sight

An abominable pile
Miscreation
Spewing pestilence and bile
Miscreation
A horrendous slab of life
Miscreation
With excruciating strife
Miscreation
