

## These Daze

Enuff Z'Nuff

So very long, the years.  
Hiding behind the fears,  
Of doing our own things so fast,  
We took the days, we made them last.  
And I know that we let it go way out of line,  
But the main thing is hey,  
We didn't lose our minds.  
So good (so good). So fine (so fine).  
I will never let it leave my mind.  
I'll remember these days  
For the rest of my life.

Long kisses in the halls.  
Wasted behind the stalls.  
Our chicks were hot, our cars were fast.  
We took the days, we made them last.

We take the weekends  
And throw them away.  
We're cheek to cheek  
When there's nowhere to stay.  
The keg is cold and we're ready to play,  
oh these days.
