

Watch as the world turns around  
While your blink your eyes  
(Time to awaken)  
Abandon trivial laws you abide  
They hinder fulfillment and purpose of life

Crusading dreams  
Fantasy  
Reality  
Dark clouds will overthrow  
A silver line will show  
Search for you destination  
Judgment fly by  
Decoded poetry lives in anthology  
Reveals severed visions of agony secretly

Imagine the face of the earth will lift up the veil  
No more pretending  
The only idols that fill you with hope  
Should not be the ones that will vanish in smoke

Crusading dreams  
Fantasy  
You are the one behind the wheel  
Dark clouds will overthrow  
A silver line will show  
Search for you destination  
Judgment fly by  
Decoded poetry lives in anthology

An inner war that weighs you down  
Take fate into your own hands  
And face the fury burning within  
This entity is your device  
You have to pay for your sins  
Summon your mind and you will prevail in the end

Tempus solum esrt quod nos possidemus  
Ut ad praeteritum recedarmus non fieri potest  
Diem carrere mandatum nostrum est

The present lives in you  
Memories created  
Venerate dedicate  
The time to live life and realize

Extend your mind  
Accept defiance  
Ipse facis consilia  
Chasing ideals bound to be ruined  
Persequere imagines optimas

Dark clouds will overthrow

We can be  
We can see  
Everyone will fight to find their way

I'm here to survive  
I'm stronger now and will fight  
(Never hide)

I'm drawn by the light  
And will never run and hide

Do not you believe in tainted trust  
(You're blinded by the light)  
The root of hate turns into dust

Animus a quopam iuvatus  
Omnia effecit
