

El Código Vital

Epica

Standing before our great alteration
We all are lost in a power maze
Minds contemplating around saving and life's mutation
We are the victims of our destination
The drive within is an endless race
No cure for progress our lives will be lost in damnation

Vita
¿Y si logramos desafiar
El código vital?
¿Será el fin de la humanidad?

Why are we changing what's there by creation?
It's meant to be for eternity
Will we abandon the arms of our dear Mother Nature?
Seeking too deep in the glass of all wisdom
Seeing a wave in the sea of life
To cure the fallen, we pay the price of greater danger

Vita
¿Y si logramos desafiar
El código vital?
¿Será el fin de la humanidad?

There is no soul in artificial selection
As we are driven by endless pride
We'll crack the code of life

Vita
¿Y si logramos desafiar
El código vital?
Nadar en la luz celestial
¿Y si podemos diseñar
Un mundo nuevo sin dolor?
No es nuestra misión
Es el código, no hay otra opción
