

Huc muta vitia
Lucem veram aspice
Serva nimbum matris Gaias
Hic in altissimo
Tempus urget nos homines
Ne timete pia facere

We are the devil in disguise
Running away from obligations
Don't look the other way, fight to live on
Lift off the veil that bounds the night
Try to avert our devastation
Hold your head up high, fight and stand strong

Gaia your spirit has left forever
Those tears that you've shed
Dear Gaia, it's never too late
Save our souls, arise and create

Huc muta vitia
Lucem veram aspice
Ne timete pia facere

To rule the world with tyranny
Will never prize the ways of wisdom
Don't tear the world apart, fight to prolong
The sun keeps shining for us all
Freedom will never fade to shadow
Step into the light, it's where we belong

Gaia your spirit has left forever
Those tears that you've shed
Dear Gaia, it's never too late
Save our souls, arise and create

Verity
A tragedy
Burn as the fire ascends
In my mind, this is the end
No last chance
Watch the world go up in flames

In the light
The darkness cannot hide
Forever in denial
Careless till the end
In the night
Our vision has gone blind
Time to open up your eyes
On to the cold dark night

Huc muta vitia
Lucem veram aspice
Serva nimbum matris Gaias
Hic in altissimo
Tempus urget nos homines
Ne timete pia facere

Gaia your spirit has left forever
Those tears that you've shed
Dear Gaia, it's never too late
Save our souls, arise and create

Hic in altissimo
