Human Devastation

Epica

Madness surrounds me, anger growing, disbelief
Chaos erupting, turmoil brewing, fires blaze
Madness within me, final stage of tranquility
Madness with you, anarchy is looming

Defcon 4, prepare for war
Distrust and desperation
Unaware of mayhem to come
Human devastation

Madness around me, radiation frying our brains
Knowledge deceiving, sources manifesting hate
Madness within me, every day goes on and on
Madness within you, apathy is dooming

Defcon 4, prepare for war
Distrust and desperation
Unaware of mayhem to come
Human devastation

Insanity
Taking hold
Humanity
A dying breed

Desperately clinging
Onto existence of pain
Tormenting future
No one to save us now

Desperately clinging
Onto existence of pain
Tormenting future
No one to save us now, we're dead

Madness surrounds me, anger growing, disbelief
Chaos erupting, turmoil brewing, fires blaze

Defcon 4, prepare for war
Distrust and desperation
Unaware of mayhem to come
Human devastation
