

Hype Train

Equilibrium

The road is clear and the engine warm
The time is right to put on my uniform
The jacket fits and the shoes are tight
There are 70.000 miles to ride

I take control of my working tool
I double-check the type and the amount of fuel
The pressure indicator starts to move
And the pistons are dancing on the groove

So here we are
Once again
End of the line
There's no way back now

Let's go, let's go
You wanna live forever?
Because it's now or never

It's now or never
The light is flashing inside me
It's now or never tonight
Come with me

It's now or never
The light is flashing inside me
It's now or never again
Come with me

Let's go, let's go

The rays of fortune are searching for me
With all my passion I step outside and play

You wanna live forever?
Because it's now or never

It's now or never
The light is flashing inside me
It's now or never tonight
Come with me

It's now or never
The light is flashing inside me
It's now or never again
Come with me

Come with me
Let's go, let's go
Let's go, let's go
