

# Moonlight

## Equilibrium

When the daylight turns away  
And the hidden beings start to play  
When the mist returns with pride  
And the stars are forming side by side

This is the reason I don't fall asleep  
This is the reason I need to go deep

This is the reason I don't close my eyes  
This is the reason I don't believe your lies

Your lies!

I can see the fire  
I can feel desire  
I can hear the silence of eternity

I will guide you  
I will light your way  
Until the day will dawn again

Walking on the secret trail  
Don't care about the holy grail  
Even when I'm all alone  
I'm not afraid of the unknown

This is the reason I don't close my eyes  
This is the reason I don't believe your lies

I can see the fire  
I can feel desire  
I can hear the silence of eternity

I will guide you  
I will light your way  
Until the day will dawn again

I can see the fire  
I can feel desire  
I can hear the silence of eternity

I will guide you  
I will light your way  
Until the day will dawn again
