

Nomen Adore

Era

I will look in the sky
I will search for the signs
Who'll tell us all about
Where we'll be tomorrow

I will read all the books
Of many continents
To tell you all about
The legends of the past

I will wait for the sun
On top of the world
To tell you all about
The beauty of the light

Era menona
Ivanoria
Era menona
Misere mani

Era menona
Nomen adore, misere mani

I will stand in the rain
Hoping sun will come through
Then I'll see the colours of a misty rainbow

I will read all the books
Of many continents
To tell you all about
The legends of the past

I'll stay up in the night
Looking on shooting stars
To tell you how magic
Is the all-universe

Era menona
Ivanoria
Era menona
Misere mani

Era menona
Nomen adore, misere mani

I will look in the sky

I will read all the books

I will search for the signs

I will wait for the sun

I will stand in the rain

I will search for the signs

I will look in the sky

I will read all the books

I will search for the signs

I will wait for the sun

I will stand in the rain

I will search for the signs

I will...

Era menona

Ivanoria

Era menona

Misere mani

Era menona

Nomen adore, misere mani
