

Everything They Say

Eraserheads

Everything they say about me is true
Every little thing about me and you
I won't hide, no I won't debate
All the dirty stories that circulate

Did you hear the one
About the dope politician
Silly stunts
They tried to pull
Did you hear
That I lost my religion
Did you read
About the April fools

Everything they say about me is true
Every little thing about me and you
I won't hide, no I won't debate
All the dirty stories that circulate

Did you hear
About my showbiz infamy
Read the one
About my bad attitude
Did you love the way
She tried to disband me
Do you collect
All the bad reviews

Everything they say about me is true
Every little thing about me and you
I won't hide, no I won't debate
All the dirty stories that circulate

Everything they say about me is true
Every little thing about me and you
I won't hide, no I won't debate
All the dirty stories that circulate

I can't unweave the news today
Dis me deconstruct me all the way
I can't unweave the news today
Dis me deconstruct me all the way
