

Floating in darkness
Magic life support system
Keeps me from sinking
Keeps me from sinking
Heart beneath my feet
She beats faster and faster
Black hole rains on me
Black hole rains on me
Black hole rains on me
Waves crash through my skin
Senses awakened from within
Let my life begin
Let my life begin
Young girl dressed in black
Neon tear drops flight upstairs
Consciousness dreaming
Consciousness dreaming
The lows, mids and highs
The sounds of your love and mine
Echo for Eons
Echo for Eons
Waves crash through my skin
Senses awakened from within
Let my life begin
Let my life begin
[x3]
Waves crash through my skin
Senses awakened from within
Let my life begin [x6]
