

Diamond Lies

Erasure

D'ya wanna be there
Take a placebo
Square in the circle
But what does she know

Living every second as if it were the last
We could go up anytime 'cause life is a blast

I got a few moves
I dance like you do
Chew it up and spit it out
Start over again

Hang on for dear life
I'm not a DJ
They follow in droves
Wherever he goes

Woah woah

You're more like a never was
More like there ever could be

What a sight for sore eyes
With your diamond lies
I gotta stop pretending
I can't take you now

D'ya wanna be there
A clueless pseudo
You're not official
You wanna pull me

Living every second as if it were the last
We could go up anytime 'cause life is a blast

You try to haunt me
A little extra
Chew it up and spit it out
Start over again

I got a few moves
I'm not a hero
Don't wanna be there
No, not like you do

Woah woah

You're more like a never was
More like there ever could be

What a sight for sore eyes
With your diamond lies
I gotta stop pretending
I can't be that guy

What a sight for sore eyes

With your diamond lies
I gotta stop pretending
I can't be that guy

Gotta wash my hands of you
Before we disappear
My mind is growing hazy now
I can't be that guy
