

# Fallen Angel

Erasure

I was so fed up with myself  
I had to change my ways  
I was so far off with myself  
It was the final stage  
Almost fell off a cliff  
I had to learn to fly

You gotta get 'em  
You gotta do it  
You gotta get 'em  
Do it

Ride on top of the roller coaster  
Walk up the down escalator  
I've tried all of the things that give me love  
Fly like a fallen angel  
Love just like it's second nature  
I've tried all of the things that give me love

There is no man that is an island  
Can do it by yourself (by yourself)  
Climb down off of your horse  
The kingdom to survey  
Fall all over the place  
I guess I made a mess

You gotta get 'em  
You gotta do it  
You gotta get 'em  
Do it

Ride on top of the roller coaster  
Walk up the down escalator  
I've tried all of the things that give me love  
Fly like a fallen angel  
Love just like it's second nature  
I've tried all of the things that give me love

You gotta get 'em  
You gotta do it  
You gotta get 'em  
Do it

Ride on top of the roller coaster  
Walk up the down escalator  
I've tried all of the things that give me love  
Fly like a fallen angel  
Love just like it's second nature  
I've tried all of the things that give me love

Ride on top of the roller coaster  
Walk up the down escalator
